

# PHLEBOTOMY & IV THERAPY CARTS

## MED-1216H-S

This cart offers a large work surface and an additional sani-wipe bracket for easy cleaning after all care-giving interactions.

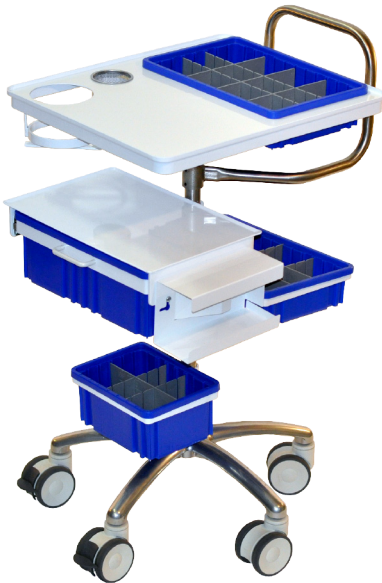

Work surface includes: Large shallow bin with dividers, pen holder, and sani-wipe bracket.

## MED-1370H-L

Offers the ease of a phlebotomy tray with the functionality of a phlebotomy cart, why sacrifice either when the ergonomics of a phlebotomy cart melds seamlessly with the integration of our form fitting phlebotomy tray.

Work surface includes: Form fitting phlebotomy tray and built in handle.

## MED-1216H-B

Does your facility require a bit more storage? Utilize the MED-1216H-B's in-between storage solution to add that additional space for all of labs incidentals.

Work surface includes: Large recessed bin with dividers, pen holder, and sani-wipe bracket.

Additional accessories: Small work bin with dividable brackets.

## MED-1222H-D

The capacious solution for facilities with electronic charting and increased storage needs. Does your facility utilize a lot of send out-tests and incidentals? Let this storage champ organize all of the specialty vials and containers with ease.

Work surface includes: Two small bins with dividers, and cord management port.

Additional accessories: Large drawer with combination lock and dividers.

## Included Workstation Accessories:

- Anti-microbial, powdercoated work surface
- Large drawer with dividers and combination lock
- Mounted glovebox
- Waste container
- Storage bin with dividers
- 5 legged fluid-shedding base
- 4" twin-wheel casters
